

- Start Maple by clicking on the *red* icon on the right toolbar. It might take Maple awhile to start the first time.
- Open Internet Explorer, and go to the course web page (<http://acunix.wheatoncollege.edu/tratliff>)
- Scroll down the page and right-click on the link **Maple Essentials Tutorial** and select Save Target As. . . Save the file to the desktop.
- Locate the file MapleEssentials.zip on your desktop and double-click on it to open it.
- Double-click on the file section1.mws.
Once Maple loads the worksheet, click on the left arrow to see the contents of the worksheet.
- You should work through the sections in the following order:
1, 3, 5, 2, 4, 6, Practice Problems
Whatever you don't finish in class today, be sure to finish on your own later.
