

# Each state is divided into a grid with 10 districts

State X

District 1 10%	District 2 10%
District 3 46%	District 4 46%
District 5 61%	District 6 61%
District 7 46%	District 8 46%
District 9 62%	District 10 62%

State Y

District 1 62%	District 2 62%
District 3 61%	District 4 61%
District 5 10%	District 6 10%
District 7 46%	District 8 46%
District 9 46%	District 10 46%

1. Do either of these states look gerrymandered to you?
2. Compute the Efficiency Gap for both states.
3. Do you have a take-away message?

Vote shares are for the  
green party
